

Your Instructor – Mike Shiflett, Director of Training, CFII,MEI, ATP – Former FAA Designated Pilot Examiner for Initial CFIs and UK CAA Examiner.

Teaching Aerodynamics Part Two

- Learn how to correctly explain Aerodynamics
- Live from KOPF & KPAO
- This lesson covers how an aircraft achieves stability around the three axes and the advantages and disadvantages of each type of stability. Also the forces in a climb, descent, and turn are discussed.

Questions?

- Initial CFI-A – Sept 14 - 21st (KPAO and KOPF)
